

## AdiIRC - Bug #1896

### Show last X messages in a query with same username as channel

01/26/2015 03:33 AM - r w

<b>Status:</b>	Closed	<b>Start date:</b>	01/26/2015
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>	Per Amundsen	<b>% Done:</b>	0%
<b>Category:</b>	Interface	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	1.9.6	<b>Regression:</b>	No
<b>Operative System:</b>	All		

**Description**

extremely low priority, I doubt many people would ever run into this;

With Logging enabled and the "Show last X messages in private windows" option enabled:  
open a query with a user that has the same name as a channel with logs (ex. user "test" and channel "#test"). It loads the logs BOTH from the channel "#test" AND the previous query with "test".

expected result is to ignore the channel log and only show query log

AdiIRC v1.9.6 Beta Build 2014/12/30 64 Bit | Windows 8.1

#### History

##### #1 - 01/26/2015 03:37 AM - Per Amundsen

- Status changed from New to Assigned
- Target version set to 1.9.6
- Operative System set to All

That's a pretty bad bug, can you post a screenshot with your logging settings?

##### #2 - 01/26/2015 03:43 AM - r w

The amount of lines it loads (in the query window) follow the channel setting as well. In the query, it would load 250 lines instead of just 50 as per my screenshot.

##### #3 - 01/26/2015 03:53 AM - r w

lol actually just tested more and this only happens because of the format I use for FileName.. my bad.

with the default "\$network - \$channel" it doesn't happen (because the channel filename is different from the query filename)

##### #4 - 01/26/2015 03:53 AM - Per Amundsen

- Status changed from Assigned to Resolved

Both of this issues are fixed for next beta, good finds, thanks.

##### #5 - 01/26/2015 03:53 AM - Per Amundsen

- Status changed from Resolved to Closed
