

AdiIRC - Bug #3054

hash table size inconsistencies

11/08/2016 08:16 PM - mr uno

Status:	Closed	Start date:	11/08/2016
Priority:	Normal	Due date:	
Assignee:	Per Amundsen	% Done:	0%
Category:	Scripting	Estimated time:	0.00 hour
Target version:	2.7	Regression:	No
Operative System:	All		
Description			
Using Adiirc 2.6 64 bit			
<pre>//hmake test 99999999 //echo -a \$hget(test).size returns 99999999 which is good</pre>			
<pre>//hmake test 10010101010 //echo -a \$hget(test).size returns 100</pre>			
interestingly /hmake test 1010101010 returns * /hmake: invalid parameters

The "/hmake test 10010101010" should show "invalid parameters" as well, fixed in next beta.

Also, you don't need to set the size, it automatically expands as you add items.

#2 - 11/08/2016 08:43 PM - Per Amundsen
