

AdiIRC - Feature #3266

/exit [-rN] improvement

02/04/2017 04:55 PM - westor (GR)

Status:	Rejected	Start date:	02/04/2017
Priority:	Normal	Due date:	
Assignee:	Per Amundsen	% Done:	0%
Category:	Scripting	Estimated time:	0.00 hour
Target version:	2.7		
Operative System:	All		
Description			
Hello,			
It would be good to add number parameter (<u>optional</u>) to force the AdiIRC to close and start again after N seconds included into the -r parameter.			
Example:			
/exit -r30 = This will exit the \$adiircexe and will run it again after 30 seconds passed.			
-rN = When N specified to start the client after N seconds and if not any N specified to restart the client just as it does now.			
- Thanks!
