Description

Sometimes It happens that 2 chatters get the same nick color.

Would be nice to make an command (/newcolors or a menu button) to check these and give the nick that came in last gets a new color.

Could also clear the whole 'database' and start giving out new colors to all chatters.

History

#1 - 03/18/2011 03:47 PM - Per Amundsen

It gives out colors from 0 to 15 .. minus any that is to close to the background color, which is typically one, then it starts from zero again.

So if there is more than 15 users, chances are two people will have the same color, i don't see way around that.

#2 - 03/18/2011 04:25 PM - Per Amundsen

Actually it went to 16, i'm gonna try reset it at 15 and see if that helps. 16 would be "normal color"

#3 - 03/25/2011 03:07 PM - Per Amundsen

- Status changed from New to Assigned

#4 - 03/25/2011 03:07 PM - Per Amundsen

- Status changed from Assigned to Resolved

#5 - 03/25/2011 03:07 PM - Per Amundsen

- Status changed from Resolved to Closed
