**Description**

I'd like to mute sounds that come from AdiIRC sometimes, such as my set highlight sound, but cannot do so unless I disable sounds via the options (which is inconvenient). I would like to be able to mute the program via the volume mixer.

### History

#### #1 - 03/12/2017 06:15 PM - Per Amundsen

If you enable [Options](#) -> [Statusbar](#) -> [Show highlight sound status](#) there will be a ON/OFF label in the Statusbar which you can click to toggle mute status, you can also type [/mute on/off](#).

#### #2 - 03/16/2017 05:51 AM - Per Amundsen

- Tracker changed from Feature to Support
- Category set to Interface
- Status changed from New to Closed
- Operative System changed from Windows 10 to All
