

AdiIRC - Bug #4250

on ACTIVE is not triggering properly in some cases

Operative System:	Windows 10		

Description

Hello I have adiirc full screen but not set to open that way. When i click the button in the windows 10 task bar, instead of minimizing it does a strange refresh and remains full screen. This may be something i am doing (again) but i wanted to make you aware of what it is doing to me on my machines. If you click the TB button when it is not in front it fronts normally but the odd refresh happens when it IS in front.

Thanks again for your help.

History

#1 - 11/23/2018 06:27 AM - Per Amundsen

This is caused by your on ACTIVE script.

#2 - 11/23/2018 06:44 AM - Per Amundsen

It seems on ACTIVE is actually triggered when the window is minimized for some reason, I have not been able to find a fix yet, but I am looking into it for next beta.

#3 - 12/31/2018 02:44 PM - Per Amundsen

- Subject changed from *Wont minimize when full screen. to on ACTIVE is not triggering properly in some cases*
- Category changed from *Interface to Scripting*
- Status changed from *New to Resolved*

Should be fixed for next beta.

#4 - 12/31/2018 02:44 PM - Per Amundsen

- Status changed from *Resolved to Closed*
