Not a bug, it's a feature, you can disable it here

https://dev.adiirc.com/projects/adiirc/wiki/Windows_Options#Hide-the-selected-window-when-activated-twice

#2 - 02/26/2020 05:23 PM - armin armin

I don't understand your link, there is no explanation that says how to disable to test.

#3 - 02/26/2020 05:25 PM - Per Amundsen

It's a description for the option which you will find in AdiIRC Options -> Windows.

Ah yes ok here: Options > Windows > Hide the selected window when activated twice

it works better now

Thank
