

AdiIRC - \$editboxhistory - # 5

Added in 2.3

\$editboxhistory(window,N)

Returns the Nth [Editbox](#) history item for the window.

See also [\\$editbox](#), [/editbox](#).

Parameters

window - The window to retrieve [Editbox](#) history from.

N - If N = 0, number of history items, otherwise the Nth item.

Properties

.pos - Returns the current [Editbox](#) history position.

Example

```
; Print number of Editbox history items for the active window.  
//echo -ag $editboxhistory($active, 0)
```

```
; Print the first Editbox history item for the active window.  
//echo -ag $editboxhistory($active, 1)
```
