

## AdiIRC - \$left - # 5

*Added in 1.8.10*

### **\$left**

Returns duration left of the currently playing song in XX:XX format.

*Only works if Media Player is set to iTunes/MediaMonkey/Winamp and proper plugins are installed.*

---

*Added in 1.9.0*

### **\$left(text,N)**

Returns the N left characters of text.

### **Parameters**

text - Text to substring.

N - The Nth characters to substring by.

### **Example**

```
; Get the left 5 characters from 'Hello World'.  
//echo -ag $left>Hello World,5)
```
