

AdiIRC - \$left - # 5

Added in 1.8.10

\$left

Returns duration left of the currently playing song in XX:XX format.

Only works if Media Player is set to iTunes/MediaMonkey/Winamp and proper plugins are installed.

Added in 1.9.0

\$left(text,N)

Returns the N left characters of text.

Parameters

text - Text to substring.

N - The Nth characters to substring by.

Example

```
; Get the left 5 characters from 'Hello World'.  
//echo -ag $left>Hello World,5)
```
