

AdiIRC - \$msgx - # 4

Added in 1.9.3

\$msgx

Returns [\\$1-](#) in a consecutive spaced line.

Same as [\\$parms](#).

Example

```
; Listen to a channel text event.  
on *:TEXT:*:#:{  
    ;Create variable with and without consecutive spaces  
    /var %text $msgx vs $1-  
  
    ; Print the variable.  
    /echox # %text  
}
```
