

## AdiIRC - \$stripped - # 3

*Added in 1.9.4*

### **\$stripped**

Returns the number of [control codes](#) that were stripped from an incoming message, if any.

*Used in [on TEXT](#), [on NOTICE](#), [on CTCP](#), [on PART](#), [on QUIT](#) and [on SNOTICE](#), possibly others as well.*

### **Example**

```
on *:TEXT:*:*:echo -ag Number of stripped control codes is $stripped
```
