Save Close ?

### Nick color

Color to use for coloring the match.

*The last dropdown item allows you to select any color you want.*

### Use random color

If enabled, the match will be colored using a random nick color.

*Ignored for your own messages, set a fixed color instead.*

### Method

Match on messages, Nicklist or both.

### Nick or address

Match the nick or address.

[\\$me](#) can be used to refer to your current nick.

### No address

Match user with no address in the [\\$ial](#) yet.

### Channel modes

Match users with the specified channel modes.

### Any mode

Match users with any channel mode.

## No mode

Match users with no channel mode.

## Away

Match only users who are marked as away.

## User levels

Match users with the specified user levels.

## Idle time [X] mins

Match users who has been idle for more than [X] minutes

## Address Book

If checked, match a nick in the [Address Book](#).

## Ignore

If checked, match a nick in the ignore list.

## Notify

If checked, match a nick in the notify list.

## Op

If checked, match a nick in the Auto-op list.

## Voice

If checked, match a nick in the Auto-Voice list.

## Network or Server address

If filled, will only match the nick if the network or server address also matches the current server.

*Multiple networks can be added using comma, [wildcards](#) is allowed.*

## Channel(s)

If filled, will only match if the nick is on the matched channel name.

*Multiple channels can be added using comma, [wildcards](#) is allowed.*
