

AdiIRC - Aquit - # 6

Added in 1.9.0

/aquit [message]

Quits all servers, if no message is specified, default (or random if enabled) quit message is used.

Parameters

[message] - The quit message to send.

Example

```
; Will quit all servers using the default or random quit message.  
/aquit
```

```
; Will quit all servers with the quit message 'See you guys later!'.  
/aquit See you guys later!
```
