

AdiIRC - Clipboard - # 4

Added in 1.9.0

/clipboard [-an] [text]

Copies <text> to the clipboard.

If [text] is empty, clipboard is cleared.

Switches

- a - Appends the text to current clipboard text instead.
- n - Adds \r\n at the end of the text.

Parameters

[text] - Text to add.

Example

```
;Adds 'clip' to the clipboard  
/clipboard clip
```

```
;Append 'board' to the clipboard so result becomes 'clipboard'  
/clipboard -a board
```
