

AdiIRC - Inick - # 8

Added in 2.4

/inick -rbfaniovpy!NmNsNw [nick[!user@host|N]|on|off] [iconfile] [modes] [levels]

Change the items in the [nick icon list](#).

Switches

- r - Remove a item from the nick icon list.
- b - Set the [Address Book](#) flag. (**AdiIRC only**)
- f - Forces the addition of a new entry instead of updating an existing one.
- a - Sets the Any Mode option.
- n - Sets the No Mode option.
- i - Sets the Ignore list option.
- o - Sets the auto-op flag.
- v - Sets the auto-voice flag.
- p - **TODO**
- y - Sets the Notify list option.
- IN - Sets the idle time.
- mN - Sets the nick color method, 1 = message, 2 = nicklist, 0 = both.
- sN - Sorts the item into the Nth position in the list.
- w - Sets the away option.

Parameter

- [nick[user@host]|N] - The nick/hostname to add/edit or the Nth item to remove.
- [on|off] - Enables or disables nick icons.
- [iconfile] - The icon file to use.
- [modes] - Channel modes to match.
- [levels] - [User levels](#) to match.

Example

```
; Disable nick icons.
/inick off

; Enable nick icons.
/inick on

; Add a nick icon for the nick 'Nick'.
/inick Nick "c:\Users\User\Pictures\icon1.ico"

; Remove the nick icon for the nick 'Nick'.
/inick -r Nick
```
