

AdiIRC - Msg - # 3

Added in 1.5

/msg <nick|#channel> <message>

Sends a message to a nick or a channel.

If the message is to a nick and "Open Window on /msg" option is enabled, a private window with that nick will be opened if necessary.

See also [/describe](#), [/me](#), [/ame](#), [/nmsg](#), [/omsg](#), [/notice](#), [/onotice](#).

Parameters

<nick|#channel> - Nick or #channel to message.

<message> - Message to send.

Example

```
; Send "Hello World!" to #channel.  
/msg #channel Hello World!
```

```
; Send "Hello World!" to Nick.  
/msg Nick Hello World!
```
