

AdiIRC - Oline - # 5

Added in 2.4

/oline [-hrSW] <@name> <N|nick> <filename>

Changes the icon of the Nth Nicklist item.

Switches

- h - Highlights the window's button. (if window is not active)
- r - Reset an item in the listbox to default.
- S - Use status window. **(AdiIRC only)**
- W - Allow using a channel or query window name for @name. **(AdiIRC only)**

Parameters

- <@name> - Custom window name.
- <N|nick> - The Nth Nicklist item or matching nick to change icon for.
- <filename> - Filename of the icon.

Example

```
alias example {  
    ; Change the icon for 'Nick' to 'c:\Pictures\icon1.png'  
    /oline Nick c:\Pictures\icon1.png  
}
```
