

AdiIRC - On_START - # 6

Added in 1.9.0

on <level>:START:<commands>

Triggers the first time a script is loaded and every time after that when AdiIRC is run.

See also [on EXIT](#), [/load](#), [/reload](#), [/unload](#), [on LOAD](#), [on UNLOAD](#).

Parameters

<level> - The [User Access Level](#) for the event to trigger.

<commands> - The commands to be performed when the event listener's criteria is met.

Example

```
; Create a init alias.  
alias -l initscript {  
    ; Set the %loaded variable to 'on'  
    set %loaded on  
}
```

```
; Listen for the START event, and when matched, run this initscript alias.  
on *:START:initscript | echo -ag Script is $iif(%loaded,loaded,not loaded)
```
