

# Serverlist Channels

In the channels tabs you can add all channels you want to join or keep as favorites.

See also [/channels](#), [/autojoin](#).

## Add

Opens up the [add channel dialog](#).

## Edit

Opens up the [edit channel dialog](#).

## Remove

Removes the selected channel(s) from the channels tab.

## Up

Moves the selected channel(s) higher up in the serverlist.

## Down

Moves the selected channel(s) lower down in the serverlist.

## Enable autojoin

If checked, all channels marked as autojoin will be joined when the server connects.

## Delay X seconds

Joining channels will start after X seconds.

## Delay between joins

Joining each channel will be delayed X seconds.

## Favorites

Channels not marked as autojoin will be treated as favorites, they can be [tabcompleted](#) from the [Editbox](#).

## Adding channels

Adding new channels can also be done by right-clicking a channel window in the [Treebar/Switchbar](#) then clicking **Add Channel** or by using the [/channels](#) command.
