

AdiIRC - Sreq - # 2

Added in 3.6

/sreq [+m|-m] [ask | auto | ignore]

Changes how incoming DCC SEND/SSEND requests are handled.

Shows the current incoming DCC SEND/SSEND option.

See also [\\$sreq](#), [/creq](#), [\\$creq](#).

Switches

-m - **TODO**

+m - **TODO**

Parameters

ask - Show a popup dialog confirming whether to accept a incoming DCC SEND/SSEND.

auto - Automatically accept all incoming DCC SEND/SSEND requests.

ignore - Ignore all incoming DCC SEND/SSEND requests.
