

## AdIRC - Topicbox - # 6

Added in 1.9.1

**/topicbox [-dhostabNeNfNpvck] [window] [text|color]**

Sets [Topicbox](#) visibility or visibility style and/or fills the [Topicbox](#) of the current or specified window with the specified text.

### Switches

- d - Use default visibility option.
- h - Show [Topicbox](#) as one line, expandable on click.
- o - Hide [Topicbox](#)
- s - Set current [Topicbox](#) option as default for all [Topicboxes](#).
- t - Show [Topicbox](#) multiline sticky.
- a - Use the [Topicbox](#) from the current active window.
- bN - Set selection start to position N.
- eN - Set selection end to position N.
- fN - If N = 1/[ $\$$ null] sets focus to the [Topicbox](#) and makes sure the window is not minimized and active.
- p - Append a white-space after the text.
- v - Prevents the [Topicbox](#) contents from being changed.
- c - Sets the [Topicbox](#) text color.
- k - Sets the [Topicbox](#) background color.

### Parameters

[window] - Window to change the [Topicbox](#).

[text|color] - Text to set or color to set with -c and -k switches.

### Example

```
; Show Topicbox as one line on #channel.  
/topicbox -h #channel
```

```
; Hide Topicbox on #channel.  
/topicbox -o #channel
```

```
; Set the Topicbox text for #channel.  
/topicbox #channel Test Topic
```
