

AdiIRC - Ulist - # 1

Added in 1.9.7

/ulist [<|>] <level>

Lists the users which have the specified access levels.

Parameters

[<|>] - Lower than or greater than level.

<level> - Levels to list.

Example

```
; Lists all users with access level lower than 10
/ulist <10
```

```
; Lists all users with access level greater than 5
/ulist >5
```

```
; Lists all users with access level 4
/ulist 4
```
